

# Germantown Hills Middle School Athletic Code

## **Interscholastic Activity Participation**

All students participating in interscholastic activities will adhere to the guidelines set up annually by the Illinois Elementary School Association (IESA), guidelines established by District 69, and guidelines established by individual sponsors. No athlete can participate on two school sports teams concurrently during the same season. Students may participate in non-school athletic teams concurrently with the understanding that the school team takes precedent over non-school teams when a scheduling conflict occurs. Any athlete found in violation of these polices may be dismissed from the school team.

## **Eligibility Policy for Athletics/Extracurricular Activities**

At the beginning of the season for each school-sponsored sport or extracurricular activity, the middle school principal will secure a list of all participating students from each coach or sponsor and issue a copy of each list to each teacher. These lists are to be used for eligibility purposes. In order to inform parents in a timely manner of their child's sports eligibility, teachers are required to submit eligibility lists to the athletic director by 12:30 P.M. each Thursday afternoon. Each Friday morning, the athletic director will send to the principal the names of students on the lists who are receiving cumulative failing or unsatisfactory grades in subject areas or in conduct. Students who are failing any subject are ineligible from (and including) the following Sunday through (and including) the following Saturday. For example, a student placed on the "ineligibility" list Friday will still be eligible to participate Friday evening and Saturday. Their "ineligibility" begins Sunday and continues through (and including) Saturday.

## **Absence Policy for Athletics/Extracurricular Activities**

All students participating in interscholastic activities must be in attendance of school for at least 50% of the school day in order to participate in scheduled games or practices after school. Any student leaving school due to illness may not return for after school activities. Students must participate in P.E. classes on the day of athletic contests or practices.

For a particular season, this athletic code shall become effective from the first day of practice after tryouts and last through the final day of each season.

We have read and will abide by this athletic code as long as the student is an active participant on an interscholastic activity here at Germantown Hills Middle School.
