## IMMUNIZATION REQUIREMENTS FOR STUDENTS

GRADE LEVEL	SHOT	REQUIREMENT
Kindergarten	DPT/DTap or Tdap, Td	4 or more doses of DTP/DTap with the last dose qualifying as a booster and received on or after the 4th birthday. The first 3 doses in the series shall have been received no less than 28 days apart. The interval between the 3rd and 4th or final dose shall be at least 6 months.
Kindergarten	POLIO	3 or more doses of polio vaccine (OPV) or (IPV). A child who received any combination of IPV and OPV shall show proof of having received at least 4 doses, with the last dose received on or after the 4th birthday. Doses in the series shall have been received no less than 28 days apart. A child who received IPV exclusively or OPV exclusively shall show proof of having received at least 3 doses, with the last dose received on or after the 4th birthday. Doses in the series shall have been received no less than 28 days apart.
Kindergarten	CHICKEN POX (Varicella)	2 doses of the vaccine, the 1 <sup>st</sup> dose must have been received on or after the 1 <sup>st</sup> birthday and the second dose no less than 28 days later. Statement from physician or health care provider verifying disease history <u>OR</u> laboratory evidence of varicella immunity.
Kindergarten	MEASLES	2 doses of Measles Vaccine, the 1st dose on or after the 1st birthday and the 2nd dose no less than 28 days after the 1st dose or laboratory evidence of measles immunity <u>OR</u> certified physician verification.* <b>*Cases diagnosed after 7/1/2002 must include lab evidence.</b>
Kindergarten	RUBELLA	2 doses of Rubella Vaccine, the 1 <sup>st</sup> dose must have been received on or after the 1st birthday and the second dose no less than 4 weeks (28 days) later. Proof of disease is not acceptable unless laboratory evidence of rubella immunity is presented.
Kindergarten	MUMPS	2 doses of Mumps Vaccine, the 1 <sup>st</sup> dose must have been received on or after the 1 <sup>st</sup> birthday and the second dose no less than 4 weeks (28 days) later. Proof of disease, if verified by a physician or laboratory evidence of disease by date of illness.
6th	HEPATITIS B	3 doses of hepatitis B vaccine, or other proof of immunity. The first 2 doses shall have been received no less than 28 days apart. The interval between the 2nd and 3rd dose shall be at least 2 months (56 days). The interval between the 1st and 3rd dose shall be at least 4 months (112 days). Proof of prior or current infection, if verified by laboratory evidence, may be submitted for proof of vaccination.

6th	Tdap	Beginning the 2013 – 2014 school year, all students entering, advancing, or transferring into 6th, 7th, 8th, 9th, 10th, 11th, or 12th grades will be required to show proof of receipt of one dose of Tdap vaccine (combined tetanus, diphtheria, acellular pertussis) regardless of the interval since the last Dtap, DT or Td dose. Most students may have already received the vaccine and simply need to provide the school with verifying documentation from the health care provider.
6th	MENINGOCOCCAL CONJUGATE VACCINE	Beginning the 2015 – 2016 school year, 6 <sup>th</sup> graders must have 1 dose of MCV4. The first dose received on or after the 11 <sup>th</sup> birthday.
6th	VARICELLA	Students entering 6 <sup>th</sup> or 9 <sup>th</sup> grade must have 2 doses of Varicella Vaccine, the 1 <sup>st</sup> dose must have been received on or after the 1 <sup>st</sup> birthday and the second dose no less than 4 weeks (28 days) later.
